

The book "The two manuscripts of the Manchu epic tale "Nisan saman biche" is the Chinese translation from Manchurian version. In this book, page layout is set up with Chinese-Manchurian cross reference. Two different versions of original manuscripts are taken: from Vladivostok and from Haila. Over 200 ambiguities in the manuscripts were resolved with new interpretation, thus readers will find this translation comprehensive, and will deeply understand the story of saman's pursuing a soul in his travel to the dead world, with full-scale aspects.
